The Wise Planter Orders Early

Dear Friends:

I have sad news for all of our old friends and customers. Some of you have heard. To others of you it will be a shock. My father died last May 29th. He had rallied from his operation and worked hard all spring trying to take care of you on your orders for the nursery stock he so loved. His one aim in life was to give everyone a full dollar in value for a dollar received—and he didn't think in terms of these inflation times, as you well know.

I shall continue the Welch Nursery, trying my best to follow in my father's footsteps. It has not been easy making up this catalog without his sage, sound counsel, but we have tried and I believe you will agree that we are giving you outstanding values in nursery stock this year.

I want to thank all of our old customers for their loyalty and confidence in us. To our new customers I pledge the best in quality and service possible. It is my firm belief that a satisfied customer is our best recommendation.

Yours truly,
Homer Welch

PLANTS AND TREES BY PARCEL POST

We strongly urge the advantage of our Parcel Post system for handling small quantities and the smaller size plants and trees.

We can send by Parcel Post, Grape vines, Raspberry and Blackberry plants in lots of 100 or less. Currants and Gooseberries, both one- and two-year-old, in lots of 25 or less. One-year-old fruits and ornamental trees and shrubs, Roses, also bulbs, Peonies, Iris, and perennial plants.

The two larger grades of trees cannot be sent by Parcel Post. However, we call attention to the fact the express rates on nursery stock have been reduced about 25 per cent, which will be quite a saving to you on larger size trees.

We prepay the postage on all Parcel Post shipments, and your plants are laid right down at your door.

GUARANTEE OF GENUINENESS. If any nursery stock, etc., proves untrue to description under which it is sold, we hold ourselves in readiness, on proper proof, to replace all such nursery stock, etc., that proves otherwise or refund the amount paid, but shall in no case be liable for any sum greater than the amount originally received for said nursery stock.

STATE CERTIFIED STOCK. Certificate of Nursery Inspection, No. 153, furnished with every shipment.

Personal checks accepted. Iowa customers only, please add 2 per cent sales tax.

Order Early!

Order early while our assortment is complete. We have a very fine lot of stock this year but as the season progresses we always run short of some varieties. Be sure to specify on your order whether or not we can substitute equally desirable varieties provided we are out of some of the items.

SIXTY-SEVEN YEARS OF
CONTINUOUS SERVICE
IS OUR BEST RECOM-
MENDATION TO YOU.

WE MUST have a deposit of 25% on all C. O. D. orders. We are sorry but experience has taught us that it is a losing proposition to fill orders and make shipments unless a deposit has been paid on the order. Our stock is perishable and must have prompt attention when it arrives at the destination. So we are compelled to ask a deposit of 25% of the amount of the order as a guarantee of good faith. We guarantee satisfaction or your money refunded.

Our Guarantee

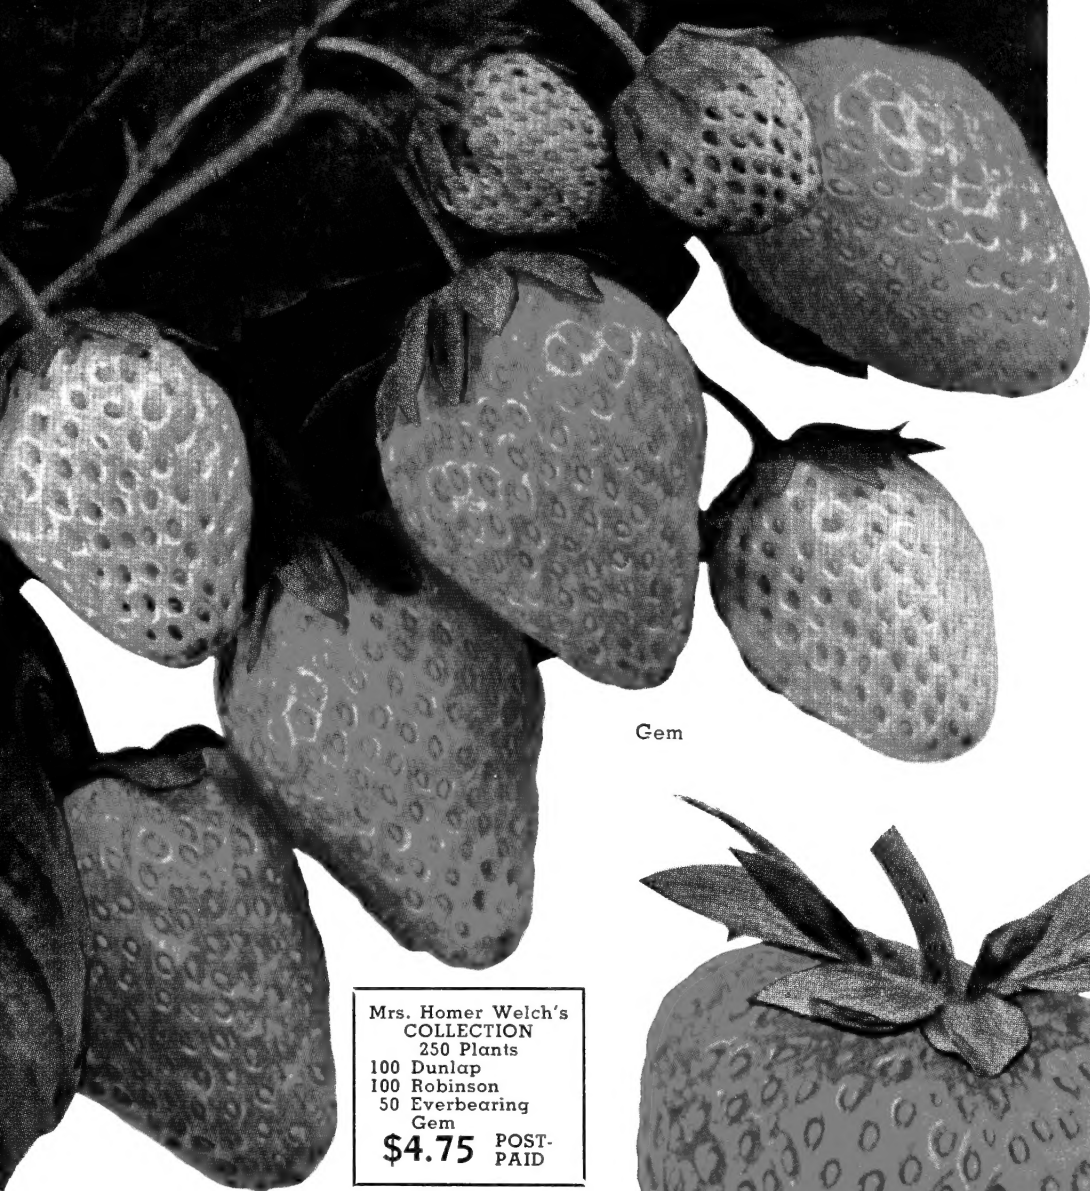

All goods are guaranteed to reach you in good live growing condition. Mistakes, if made, will be promptly adjusted. Accept the shipment and notify us at once, should there be any errors, and the carrier as well, should there be any damaged stock. This guarantee is not good unless above requirements are complied with. Nursery stock is just the same as human beings—it breathes, drinks and feeds, and is subject to disease. With proper planting and proper care, we know that our stock will grow and do well for you.

LILY-OF-THE-VALLEY

Welch's GRAPES

There is no more healthful drink than good sweet Grape juice. A drink for the gods and for the humblest laborer toiling in the hot sun; it has found its way in administering to the sick and to the merry-makers; it has become an element of the sacrament and of the celebration. Knowing what real values there are in Grape culture, I like to think that I am building up the health of my customers when I recommend heavy planting of Grapes. Never hesitate to put faith in a Grape vine, for it will justify that faith if you give it half a chance.

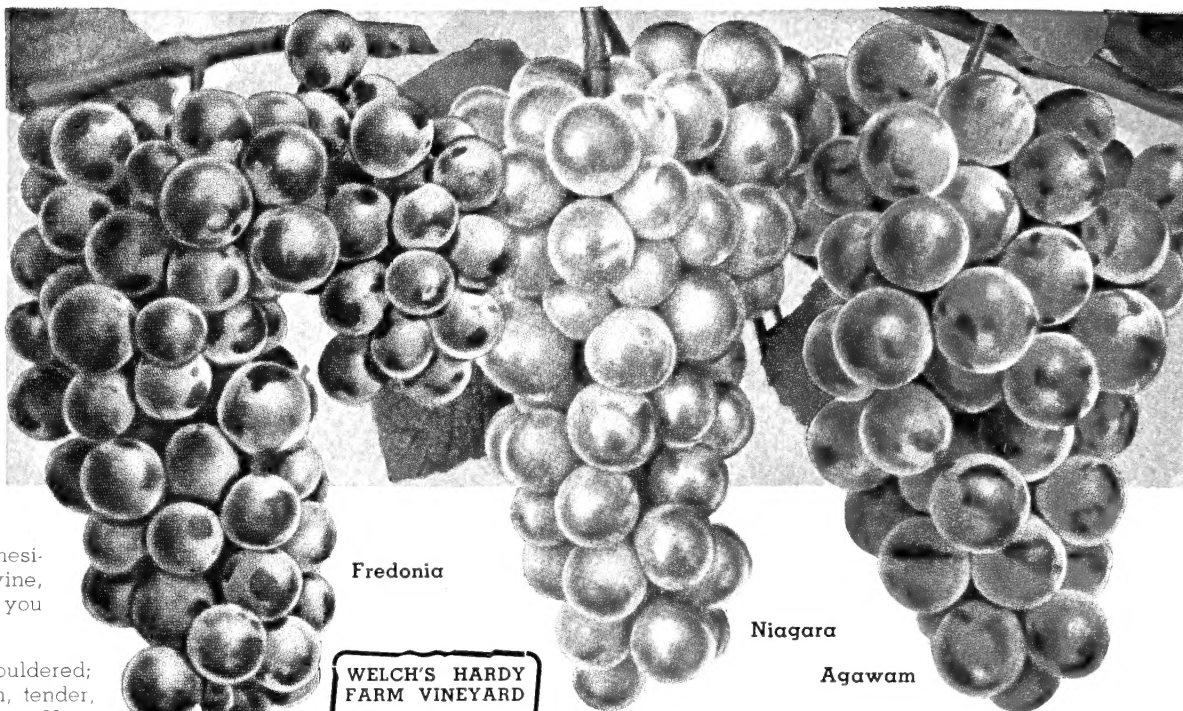

AGAWAM. Bunch large, shouldered; berry large, reddish brown, tender, vinous and of excellent flavor. Very vigorous and productive. Fine, hardy, and one of the best of its class. The most productive of all reds. **2-year, 25c each, prepaid.**

The list that we offer are the choicest varieties for the home and commercial planting.

WANETA. (Hansen.) July. The fruit is of immense size, deep red; skin very thin, and the flavor is delicious. Prof. Hansen's best Plum and in fact, one of the greatest of all Plums.

UNDERWOOD. This is the earliest of the large new Plums. Ripens from about August 1st to 15th, and attains a size of 1 3/4 inches. The tree is one of the strongest growers of all these new Plums and gets to be very large, furnishing a large bearing surface to produce wonderful crops of beautiful fruit. Fruit is red; firm, juicy flesh, very small pit; freestone. Splendid quality.

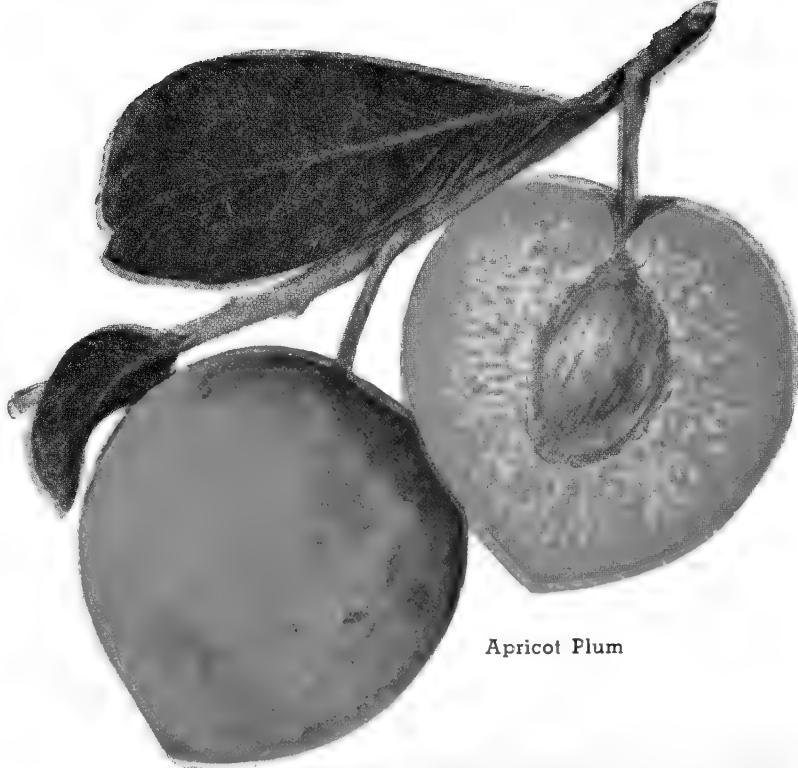

TERRY. (Native.) August. Best of the natives. Fruit bright red color. Fine quality. One of the largest and most handsome hardy Plums and deserves extensive planting. Fruit ripens evenly and is a good keeper.

TECUMSEH. One of Dr. Hansen's latest productions. A tall growing tree, vigorous in form, with large leaves. Very hardy North. Large, red color with flesh yellow and a freestone. One of the heaviest bearing and greatest of early Plums.

ELLIOTT. (Peach Plum.) A very large, yellow-fleshed, perfect freestone Plum. Very sweet and of fine Peach flavor. Requires only half the usual amount of sugar for canning. Does not rot on the trees. Our orchards bore an immense crop last year, crop has never failed. This Plum is in a class by itself. Season early August. Color orange-yellow splashed with red.

APRICOT PLUM. (Hanska Type.) This variety has all the good qualities that a Plum should have, with an Apricot flavor. The fruit is excellent for eating from the tree, canning, preserving or jelly. The luscious fruit is reddish blue. Tree strong grower, a 6-year-old tree measuring 30 feet high and 20 feet across. A good shipper. Freestone. Season August.

STANLEY PRUNE. The sweetest Prune grown and bears the quickest. Often starts bearing the second year and yields every year. Beautiful dark blue skin. Fine, sweet, juicy, golden flesh, requires very little sugar for canning. Juice is rich wine-purple. Tree hardy, vigorous and healthy. A freestone and a favorite for canning and drying. 3 ft., 5/16 in., \$1.00 each. 4 ft., 7/16 in., \$1.25 each, prepaid.

HOW TO PLANT YOUR NURSERY STOCK

Do not let the roots become dry. Keep them covered at all times with damp sacks or something similar.

Fertile soil, well prepared, is extremely important. Spade up the soil as deeply as possible. For Roses, Shrubs, Perennials, Bulbs, etc., it is well to work in a good fertilizer. No fertilizer, however, should ever come in direct contact with the roots.

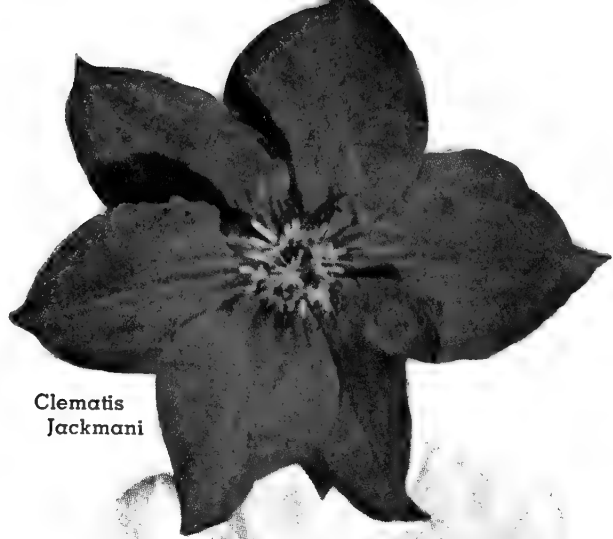

Proper pruning is most essential. Nip off ends of roots with a sharp knife or shears, always making a diagonal cut. Cut back the tops in the same way. Severe pruning of shrubs and Roses often determines success or failure of your planting.
